LIGHT! & good!

Beloved Children:

"Let there be Light, and there was Light" - LIGHT is the instrument of the Great Universal Intelligence. It is the transmitter of God's Peace, Happiness, Beauty and Plenty. Turn the consciousness to The Light within, for that is the connection with The Father over which His Substance and Perfection flows to enrich the individual experience-world.

In the urgency of daily living the chela often finds it difficult to spend even five minutes two or three times out of the twenty-four hours in contemplation of The Light that beats the heart and which keeps the Life flowing through the body-temple. Or he might consider The Light as a Sun within the human brain, sending Its rays through the eyes, ears, nose and throat, clearing, cleansing and purifying these channels.

Stand in The Light and draw to yourself that which is yours. To the aspirant moving forward upon the pathway of self-mastery there comes an hour when all external form must be divested of the power to influence or sustain him.

If the Will of the "I AM" Presence did not sustain It, The Flame would not long remain in any human heart. When the chela is shorn of all confidence in the outer (the illusory world of form) it is indeed a period of initiation, of growth, unfoldment and awareness. In the seemingly painful process of turning from disillusionment and confusion, the soul leans on God for sustenance, and man again lives, as he was intended to live - within The Light.

When a person lacks any specific expression of good it is a definite proof that his attention and consciousness have temporarily slipped from the awareness, that all good comes from within.

The Light called forth through an enlightened individual to treat world conditions is a lasting and enriching Power. It is a mighty service rendered to the Divine Hierarchy, Who so earnestly desire the co-operation of unascended beings.

Taking a five-minute period three times out of the twenty-four hours of man-made time, preferably at certain specific intervals, during which the chela can sit, holding the mind completely free from thoughts of people, conditions or mundane duties, and keeping the attention on The Light flowing from the "I AM" Presence into the heart, filling the mind and body, and flowing out into the point on earth where he is, will bring peace, plenty and every good thing flooding the world of this servant of The Light.

Love and Blessings
